To whom it may concern:

We are writing this letter to serve as a reference for PCD, Inc.

Northern Electric Inc. is a union electrical contractor based out of the Northern Bay Area. With over 40 years of experience we have defined ourselves as a regional leader in Industrial & Commercial electrical contracting. We have had the opportunity to work with PCD, Inc. on many diverse projects. Most recently, Camille Creek school in Napa and the American Ag Credit Headquarters in Santa Rosa. PCD's employees were professional, responsive, and communicative throughout. We're looking forward to collaborating with them in the near future.

The Camille Creek project required integrating a school-wide digital signage system in a new, two story school building. The American Ag Credit Headquarters is a 120,000 square foot office building in which PCD was responsible for the complete AV system. Throughout, PCD showed the ability to respond quickly to questions and concerns from the project owner, they worked diligently to fix issues and complete the project ahead of schedule. Their team executed on every level and performed above expectation.

Our experience collaborating with PCD, Inc. has been extremely satisfactory. We're looking forward to working with them again.

Sincerely,
Michael Klee
Project Manager
Northern Electric Inc.
