Re: Reference Letter for PCD

To Whom It May Concern:

Representing Central Peninsula church I would like to offer this letter of recommendation for PCD

We contracted PCD to design and install a new PA system in our main auditorium during the Covid-19 Pandemic. John Rudolph and the rest of the team were extremely professional and helpful throughout whole process. John Rudolph worked with me and my team to go through all the options for our room. Once we had selected a D&B speaker system PCD worked with the manufacturer to design the system for our room and model it ensure the system would work flawlessly. They were incredibly knowledgeable and experienced with everything I threw at them. The install and the quality of workmanship exceeded my expectations. The D&B system that PCD installed sounds and performs perfectly. The whole process went great and Im looking forward to contracting PCD again.

Sincerely,

A handwritten signature in cursive script that reads 'Timothy Belleson'.

Tim Belleson
